

1: IDENTIFICATION

Chemical Name	3,4-dimethyl-2,6-dinitro-N-pentan-3-ylaniline		
Synonyms	Pendimethalin 30% EC	Trade Name	PERPENDI
Uses	Herbicides	Molecular Formula	C ₁₃ H ₁₉ N ₃ O ₄
Manufacturer/ Supplier	Ulink AgriTech Pvt. Ltd. Office Nos. 001 And 002, Ground Floor Wing "A" And Nos. 003 And 004 Ground Floor Wing "B", Nyati Tech Park, Wadgaon Sheri, Pune - 411014, Maharashtra		
Emergency Contact	9503095030	E-mail	info@agrostar.in

2: COMPOSITION/INFORMATION OF INGREDIENTS

Chemical Name	CAS #	Percent or Content (w/w)
Pendimethalin	40487-42-1	30.00%
Blend of ionic and nonionic emulsifiers	-	7.00%
Aromatic Solvent (solvent Naphtha)	-	63.00%

3: HAZARD IDENTIFICATION

Physical/ Chemical Hazard	Toxicity class: WHO (a.i) III; EPA (Formulation) III		
Human Health Hazard	May causes eye irritation; May cause nausea, vomiting, and diarrhea. Keep out of reach of children. Keep out of reach of domestic animal.		
Environment Hazard	Very toxic (acute effect) to fish, aquatic invertebrates and aquatic plants		

4: FIRST AID MEASURES

General: Have the product container, label or safety data sheet while seeking medical attention, a poison control center or physician, or going for treatment.

Inhalation: Move patients to fresh air. Keep the patients warm and at rest. If person is not breathing then give artificial respiration, preferably mouth-to-mouth if possible. Allow patients to rest. Immediately seek medical attention.

Ingestion: Remove by gastric lavage and catharsis. Maintain blood pressure and airway. Give oxygen if respiration is depressed. Do not perform gastric if victim is unconscious. Do not give anything by mouth to an unconscious person. Seek medical attention immediately and show this container or label.

Skin Contact: In case of contact with product, wash immediately skin area with plenty of water and soap. Speed in removing material from skin is extremely important. Remove and isolate contaminated clothing and shoes. Call medical attention.

Eye Contact: Rinse immediately with plenty of water for several minutes. After 5 minutes remove contact lenses if present and continue rinsing with plenty of water. Continue to rinse with eyelid wide open for at least 15-20 minutes. Seek medical attention if irritation develops.

Note to Physician: No specific antidotes. Treat symptomatically.

5: FIRE FIGHTING MEASURES

Extinguishing Media: Water spray, alcohol-resistant foam, dry chemical powder or carbon dioxide

Unsuitable Extinguishing Media: Direct water jet as it may spread fire

Hazardous Thermal (de)composition: Harmful and toxic vapours/gasses including oxides of carbon and nitrogen may release as combustion products

Special Procedures: Move containers away from area if it can be done without risk. If possible remove containers from fire zone, cool them with water spray. Minimize use of water to prevent environmental contamination. Dike and collect water used to fight fire to prevent environmental damage due to runoff. If area is not too heavily exposed to fire, and if conditions permit, let fire burn itself out, since water may increase the contamination hazard. Do not discharge extinguishing water into the drain or water bodies.

Protection of Fire Fighters: Wear positive-pressure self-contained breathing apparatus and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots, and gloves). If protective equipment is not available or not used, fight fire from a protected location or safe distance.

6: ACCIDENTAL RELEASE MEASURES

Personal Precautions: Ventilate spillage area. Use personal protective equipment as required. Evacuate personnel to safe areas. Keep people away from spill/ fumes.

Environmental Precaution: Do not allow runoff to enter drains and public waters. Notify the authorities if product enters.

Methods for Cleaning up: Clean up any spills as soon as possible, using an absorbent material such as sand, soil, diatomaceous earth etc. Collect and transfer into containers for disposal. Clean contaminated floors and objects thoroughly with water and detergents. Dispose of in accordance with local regulations. If significant amount of product enters into drain, notify the local authorities.

7: HANDLING & STORAGE

Handling: Do not smoke, drink, or eat during handling. Wash hands using liquid detergent. Wear protective clothing to avoid contact and/or inhalation with the product. Eliminate all sources of ignition from areas where the material is handled or used. Good personal hygiene procedures must be practiced.

Specific Conditions: Good local exhaust ventilation. Full face protective mask.

Storage: Store in dry, cool, well-ventilated area and out of reach of children. Keep in original container and tightly closed when not in use. Protect from temperatures above 40 °C. Keep away from direct sunlight, open fire and sparks.

8: EXPOSURE CONTROL/PERSONAL PROTECTION

Engineering Measures: Ensure area is well-ventilated, especially confined area. Handle in accordance with good industrial hygiene and safety practice.

General Protection: Avoid contact with eyes and skin. While handling the product wear cotton overalls buttoned to the neck and wrist, elbow-length PVC gloves and face shield. After use and before eating, drinking and smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves and contaminated clothing.

Personal Protection: Follow all precautions and instructions on the label. In all other cases the following recommendations would apply.

Respiratory Protection: Always use NIOSH/MSHA approved respiratory protection equipment with a universal filter type including particle filter.

Skin Protection: Must wear suitable protective clothing. Long-sleeve shirt, long pants, shoes plus socks. Any clothing or other absorbent material which has been drenched or heavily contaminated must be discarded.

Hand Protection: Chemical-resistant gloves made of any waterproof material such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, natural rubber, polyvinyl chloride (PVC) or Viton.

Eye Protection: Safety goggles, chemical splash goggles or face shield for eyes protection should be used. Safety showers and eyewash should be easily available.

Others: Wash clothing before reusing.

9: PHYSICAL/CHEMICAL PROPERTIES

Appearance : Liquid	Acidity as H₂SO₄ : < 5.0 g/Kg	Physical State: Liquid
Colour: Brown to dark Yellow	pH: Not available	Vapor Density (Air=1) : 0.021
Solubility in Water: Emulsifiable	Odour: Mild aromatic solvent odour	Vapor Pressure (mm) : 20.7

10: STABILITY & REACTIVITY

Stability: Stable for under normal circumstances

Hazardous Decomposition Products: Combustion may produce oxides of carbon, nitrogen and hydrochloric acid.

Conditions to Avoid: Temperature above 35°C and exposure to flame, heat and direct sunlight

Materials to Avoid: Strong alkaline material, acid or oxidizing materials

11: TOXICOLOGICAL INFORMATION

Rat oral LD ₅₀ [mg/kg] : >2000	Rat inhalation LC ₅₀ [mg/l/4h] : No data available	Skin irritation (rabbit): Non-Irritant
Dermal (rat) LD ₅₀ [mg/kg] : >2000	Skin Sensitization (Guinea Pig): Non-sensitizer	Eye irritation (rabbit): Mild irritant

12: ECOLOGICAL INFORMATION

Ecotoxicity

Effects in Birds : Not toxic for birds

Effects on Aquatic Organism (Nontarget species): Very toxic to fish.

Rainbow trout LC₅₀ (96 hrs)[mg/L]: 0.14 Daphnia magna LC₅₀(48 hrs) [mg/L]: > 1.0 Honey Bee LC₅₀[µg/bee]: >50

Bio-accumulation Potential : No data available

Persistence, Degradability and Mobility in soil: Moderate persistence; Low mobility, low risk of underground water contamination

13: DISPOSAL CONSIDERATION

Waste-disposal Procedures: Recommended disposal method for this material is incineration. Residues and waste must be disposed of according to local regulations. Do not contaminate drains, streams, rivers or waterways with the chemical or used container.

Contaminated Packaging: Empty remaining contents and the rinse containers thrice before disposal. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers unless they are specifically designed to be refilled.

14: TRANSPORT INFORMATION

UN No. 3082 **Proper Shipping Name:** Environmentally hazardous substance, n.o.s. (Pendimethalin 30%)

Land Transport (ADR/RID): Class-9, Packing Group-III, Hazard ID no. : 90, Item no: 11

Sea Transport (IMO/IMDG): Class-9, Packing group-III, Marine Pollutant- Yes

Air Transport (IATA / ICAO): Class-9 Packing group-III, Hazard Label - Miscellaneous

15: REGULATORY INFORMATION

Hazard Symbol: Xn: Harmful , N: Dangerous for the environment

Risk Phrases: R 22 R 50/53

Safety Phrases: S 2, S61

16: OTHER INFORMATION

DISCLAIMER OF LIABILITY The information in this MSDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or methods of handling, storage, use or disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. This MSDS was prepared and is to be used only for this product. If the product is used as a component in another product, this MSDS information may not be applicable.
